VDSzSz Solidarity expresses condolences over death of German railway crew and passengers

9 February 2016

On Tuesday 9 February, ten people died including crewmembers in the train crash between Rosenheim and Holzkirchen.

Our first thoughts and expression of solidarity go out to the railway workers' relatives, colleagues and friends. This is a devastating time for them and for all who learnt about this accident.

The German railway network has a very high repute when it comes to safety; this is the gravest accident in Germany since many years.

We count on a profound and transparent investigation into the causes of these deaths and hope that sufficient measures will be taken to prevent this from happening again.

In solidarity,

Zoltán Halasi
president
VDSzSz Solidarity
