EAST JAPAN RAILWAY WORKERS' UNION (JREU)

Letter of Appreciation

Dear brothers and sisters,

We deeply appreciate your quick offer. Since this July, Kyushu, Chugoku, and Kansai districts, southern parts of Japan, were struck by several typhoons and suffered from record-breaking heavy rain. Also, the highest temperatures were recorded in many places in Japan. Many lives were lost by these abnormal climates in this summer.

Moreover on September 6th, the large earthquake with seismic intensity values of 7 occurred and damaged severely in Hokkaido, northern part of Japan.

It is said the abnormal climate is caused by global warming. Not only survival of human kind but also the persistence of the earth is in a state of crisis, unless we human being insight into the future and carry out what we should do steadily.

JREU received your worm solidarity and friendship, and we are going to make every effort to relieve the sufferers. Your goodwill had encouraged us to make rescue operation, which we should do as a worker and as a human.

We wish to express our gratitude for your solidarity and friendship. At the same time we would like to let you know that we can surely see the strong bridge of solidarity and friendship stretching between our unions.

At last, thank you very much for attending JREU' s 30th anniversary conference last year.

At this annual conference, Koji YAMAGUCHI became a new president of JREU. We JREU are looking forward to continuing our relationship. We hope VDSzSsz' s continued success in the future.

In Solidarity.

山口 浩治

Koji Yamaguchi

President

East Japan Railway Workers' Union (JREU)
